**Gundog Group.** I must say that this was one of the best Gundog Groups I have judged for depth of quality with some of very good dogs not even getting shortlisted.

**Group 1**                    **Miles' Layways Van Winkle JW – Hungarian Vizsla.** Well, What can I say, this 2yr D took my eye for the first look and I knew after going over him and watching him move there would have to be something outstanding to beat him. Lovely size , shape and type, so much to like. Well made head on a well muscled neck of good length. Superb forehand, well laid shoulders, return of upper arm giving good forechest. Ribs reach down to elbow and back to a short muscular loin. Lovely level back into a moderately angled, muscular rear with a well set and well carried tail.
